

HILL'S GLOBAL SYMPOSIUM

Péče o střeva je péčí o budoucnost

V pátek 25. a sobotu 26. října
09:00-17:00

Připojte se online na přednášky světových veterinárních odborníků.

- Mikrobiom v hlavní roli
- Podpora střevního mikrobiomu
- Osa střevo-ledviny
- Osa střevo-mozek aneb jak mikrobiom souvisí se stresem
- Osa střevo-kůže

HILL'S GLOBAL SYMPOSIUM

Péče o střeva je péčí o budoucnost

25. a 26. října 2024

1. DEN Téma	Přednášející
Understanding the role of gut as a central organ for overall health	
KEYNOTE: How the gut microbiome affects distal organs	Rob Knight, PhD University of California San Diego (USA)
Gut Reaction: The future of health is here with the One Health Microbiome Resource	Curtis Huttenhower, PhD Harvard T.H. Chan School of Public Health (USA) & Jennifer Radosevich, PhD Hill's Pet Nutrition Inc. (USA)
Gut microbiome update	
Clinical utility of microbiome diagnostics	Jenessa A. Winston, DVM, PhD, DACVIM (SAIM) The Ohio State University (USA)
Managing intestinal dysbiosis in dogs and cats	Valerie J. Parker, DVM, DACVIM (SAIM & Nutrition) The Ohio State University (USA)
The power of specialized dietary fiber to manage feline constipation and diarrhea	Laura Motsinger, PhD, MBA Hill's Pet Nutrition Inc. (USA)
Gut - kidney axis update	
Gut-kidney axis: therapeutic approach to balancing waste products	Jessica M. Quimby, DVM, PhD, DACVIM (SAIM) The Ohio State University (USA)
The role of food supplemented with betaine and prebiotics on gut microbiome modulation and progression of CKD in cats	Jean A. Hall, DVM, MS, PhD, DACVIM (SAIM) Oregon State University (USA)
2. DEN Téma	
Přednášející	
Gut - brain & stress update	
The gut-brain axis: how the gut can shape health and stress-related behavior	Holly K. Arnold, MS, DVM, PhD Oregon State University (USA)
Trust their gut: It's one of the keys to managing chronic stress in cats	Natalie L. Marks, DVM, CVJ, CCFP, FFCP-Elite MarksDVMConsulting (USA)
Gut - skin update	
Gut-skin axis: The importance of gut health for healthy skin in companion animals	Aline Rodrigues Hoffmann, Med. Vet., MS, PhD, DACVP University of Florida (USA)
Impacts of nutrition on the gut skin axis	Morgan A. Key, BS Hill's Pet Nutrition Inc. (USA)
Pitfalls and challenges of skin microbiome dysbiosis	Alberto Martin Cordero, DVM, DLACVD VETDERM reference dermatology clinic in Guadalajara (Mexico)
Future tech in veterinary medicine	
Augmentation, not replacement: The use (and misuse) of AI in medical imaging	Eric J. Fish, DVM, PhD, DACVP Veterinary Consulting, LLC (USA)
The connected pet in 2031: External future forces likely to disrupt pet care	Stacey A. Bone, DVM & Jennifer Mitchell Hill's Pet Nutrition Inc. (USA)
Artificial intelligence in the veterinary profession and your day-to-day work	Bash Halow, CVPM, LVT Halow Consulting (USA)

O případných změnách programu vás vždy budeme informovat.
